

GROW with SAP versus RISE with SAP: which solution will suit your needs?

Is GROW with SAP or RISE with SAP the best choice for you? Use this checklist to make the decision – and feel free to book a consultation with our experts for more details and clarity on both solutions!

Business size & complexity

- SME with simple business processes → GROW with SAP
- Company needing industry best practices without deep customization → GROW with SAP
- Large enterprise with complex workflows & multi-entity structure → RISE with SAP
- Business requiring highly customized ERP & integrations → RISE with SAP

Digital transformation goals

- Looking for a quick ERP deployment with minimal disruption → GROW with SAP
- Looking to migrate from manual systems or entry-level ERP → GROW with SAP
- Undergoing full digital transformation & need business process optimization → RISE with SAP
- Replacing legacy SAP ECC system with S/4HANA Cloud while maintaining existing customizations and considering more customizations in the future → RISE with SAP

Implementation speed & resources

- Need a ready-to-go cloud ERP with preconfigured best practices → GROW with SAP
- Want to go live in less than 6 months → GROW with SAP
- Can invest time in a structured cloud transformation project → RISE with SAP
- Prepared for a longer, enterprise-scale migration (6+ months) → RISE with SAP

Features & flexibility

- Looking for a standardized solution with minimal customization → GROW with SAP
- Need a simple subscription-based pricing model → GROW with SAP
- Need an ERP that adapts to changing business models → RISE with SAP
- Prefer an all-in-one business transformation package with cloud hosting → RISE with SAP

Cost & affordability

- Limited IT budget, looking for a lower-cost cloud ERP → GROW with SAP
- Want lower and predictable pricing → GROW with SAP
- Prepared to invest in a fully managed cloud transformation journey → RISE with SAP
- Need full flexibility in choosing cloud providers & deployment models → RISE with SAP

Final recommendation

✓ If most of your answers are under **GROW with SAP** → Your business will benefit from a fast, cost-effective ERP solution with prebuilt industry best practices.

✓ If most of your answers are under **RISE with SAP** → You need a comprehensive digital transformation solution with advanced flexibility and deep customization.
